FOOTBALL EQUIPMENT NECESSARY TO START TRAINING OF TEAM WARNS S. T. C. ATHLETIC COACH

Dean Cox Comes Here With Experience

When Coach Cox gives inside information on how to loop a basketball or how to get distance in punts, don't think he got his knowledge from a book. A few years back a red-headed athlete was doing his stuff with great vigor on almost every team put out at Utah State College, and the

DEAN COX

said athlete was none other than David J. Cox, our new coach. Glimpse at this list of sports, in all of which Dean Cox had college experience: football, baseball, basketball, track, boxing, wrestling, and swimming.

Coach Cox played in the back-field during his football days. In addition to college experience he

has both played and coached in club and army football.

Those familiar with the grid game will recognize these famous football names, the owners of which have all been tutored in the sport by Coach Cox: Marcus and Eisan, former U. C. stars; Grannucci, late of Santa Clara; Packer of St. Mary's; Rintala of Stanford; and Shallock, of the Golden Bears.

Dean Cox comes to this college with a long and notable record as a coach at Polytechnic High school, where he was mentor for nine years. He wants to put out a football team here but due to lack of funds and a suitable field it was impossible to organize one this year. The field in the center of the campus is now being conditioned by members of the men's gym classes and will be used as a practice field.

"If this college wants to compete in inter-collegiate football next year, the men and women in the student body must back the team with all their strength," states David J. Cox.

Football equipment is paid for in other colleges with money supplied by student body fees. The student body fee here is only one dollar, whereas in other colleges of the same type it is from five to ten dollars. An increase in this fee must be met by the students here, to provide the funds for the equipment necessary to put a team in the field.

While there are other methods of getting together the money needed, according to Dean Cox, the one mentioned seems to be the most logical, and it is the one in use nearly everywhere else.

Visual Education Room Has Slides

Thousands of colored pictures and stereopticon slides, covering every conceivable subject, and available to students daily from 7:30 to 8:30 a. m. and from 12 to 1 p. m. are on file at the Visual Education Center, room 209. Reproductions of the paintings of the Old Masters, photographs of out-of-the-way and interesting places in foreign lands, and illustrations of the primitive customs of seldom-mentioned countries are all to be found in this department.

Mrs. Anna V. Dorris, assistant professor of education, is the director of the Visual Education department, and her assistant, Miss Helen Jorgenson, is in attendance at the hours above mentioned. Other hours for inspection can be arranged by appointment.

Convention At Tahoe

The presidents of the State Teachers' Colleges of California have been called to attend a conference at Lake Tahoe starting the last week in September and lasting until the first week in October. Dr. Roberts will speak at the Teacher Training luncheon on "Teacher Training in California,"

Tennis Opens Sporting Season

Interclass tennis, starting in the latter part of October, will be the first sport on the college program this year, according to Dean Cox, athletic coach.

Following tennis in consecutive order, swimming, basketball, and track teams will take the field. Each college sport will start with interclass competition, and as an incentive, intercollegiate rivalry will be added in the spring.

To the teams that next year represent the college, is given the opportunity and duty to establish a fighting tradition that will be a guiding light for the athletes of the future. According to Dean Cox, these first teams should not be judged by the number of victories they attain, but upon the way they meet defeat if they should lose.

Postal Service Added

The Book Store wishes to announce the complete postal service which it is now handling for the benefit of the faculty and students.

Twice daily all out-going mail, left at the service counter in the Book Store, is sent out.

Also, postage stamps, including special delivery and air mail, are sold.

Luncheon Starts Term's Activities For Press Club

The newly organized Press Club of S. T. C. is taking great strides to create an organization that will prove to be a real credit to the college. It was started, September 8, and since then the officers that were chosen have drafted a constitution, made numerous plans for activities in this semester, and have started social activities with an informal luncheon Monday, September 22.

The officers of the Press Club met and formulated a constitution which has been submitted to the Student Affairs Committee. It has sections for five officers and an advisory council which is composed of Mrs. Ellsworth and seven members of the club. Applications for membership and establishing the amount of dues to be paid are also duties of the advisory group. It is to act as a governing body for this Press Club. It has also stated as its purpose, the furthering of the interests of journalism as one of its major goals. The constitution now is written to include the students of journalism that are writing for either the "Bay Leaf" or the "Franciscan."

The first gathering of the Club proved an immense success. With a luncheon as its first function the Press Club started off this semester with enthusiasm. Mr. Frank Fenton, instructor of English and guest speaker gave an inspiring talk in which he declared himself chosen for the Press Club to serve a loyal supporter.

Mrs. T. H. Ellsworth as the advisor of the recently elected Advisory Board is supported by Miss Rosalyn Hyde, chairman; and seven other members: Miss Marilaton Stewart, Miss Margery Thornton, Miss Doris Weinstrom, Mrs. Ruth Sturgeon, Mr. Webster Allen, Mr. Sidney Frager, and Mr. Marshall Douglas.

Charters Necessary

All clubs of the college, new or old, must obtain an application blank for a charter from Margaret Lemon.

Petey the Pedagogue Says:

Freshmen! Please remember! It is always wise to make sure that the motor is running before you slip your tongues into high gear."

PLANS UNDERWAY FOR SUCCESS OF STUDENT BODY SPORT DANCE TO TAKE PLACE DURING OCTOBER

Noon Dances To Appear At S.T.C.

Noon dances have been discussed and now they are soon to be.

Last week, in the Student Affairs' meeting, one of the issues taken up was that of noon dances. A committee was formed to sponsor this activity, in which, it was prophesied, most of the college students will participate.

A few days later, at the first meeting of the committee for noon dances, no definite plans for conducting this recreation were made. Various ways and means for the provision of appropriate music were discussed, however. It was decided that the noon hour of one day a week is to be set aside for dancing in the Gym. Furthermore, any student can gain admission for the reasonable price of ten cents. The proceeds are to be turned over to the Student Body; and they will be added to the funds that are to be used to furnish the Activities Room.

The noon dance committee has for its advisor, Dean Ward. Miss Dorothy Asher is chairman. The following students are members: Elbert Ashland, Jacquelyn Beedle, Charles Carson, Viola Giesen, Kathleen O'Farrell, and Mae Quick.

College Paper To Sponsor Contest

A cross word puzzle to be solved and a one-hundred word essay to be entitled "Constructive Criticism of the 'Bay Leaf'" will be the features of a contest to be sponsored in ten consecutive issues of the "Bay Leaf." Two prizes of ten and five dollars each will be offered.

The first cross word puzzle will consist of names of faculty members interspersed with titles. By constructive criticism of the "Bay Leaf" is meant criticism of both good and bad points, with suggestions for improvement. The winning essay and puzzle will be printed after it has been selected by Mrs. T. H. Ellsworth, Elena Foppiano, Viola Giesen, Katherine Lawson, and Ruth Lescinski, the four associate editors.

All members of the student body except those working on the paper may participate.

V. Olsen to Leave

Miss Vivian Olson, secretary to Dr. Roberts, is leaving S. T. C. to take undergraduate work at Stanford University.

It seems that Miss Olson plans to take an English major, specializing in creative writing while at the University. She will receive her A. B. in a year.

However, when she has her degree, she intends to return to the college, in a new position. Can it be that she will join the ranks of the faculty?

Idea Of Ship Carried Out In Decorations

Gangplanks, life savers and mid-shipmen outfits carry out the scheme of a ship at the student body Sport Dance to be held in the gymnasium, Saturday, October 4th.

With Ann McHugh as chairman, many novelties have been planned to make the evening a success.

ANN McHUGH

It will be necessary to present student body cards in order to obtain the bids, which are \$1.00 a couple. Also student body cards are to accompany the bids at the door. No one will be admitted without one. This is the first time such a procedure has been used, and the cooperation of the entire student body is asked.

Members of the committee under Anne McHugh are: Eleanor Jessie, Alice Gratiot, Elena Bacigalupi, Eunice Humphreys, Jacquelyn Beedle, Gola Sanders, Betty Kennedy, Eva Starcevech, Willetta Jarvis, Elbert Ashland, Donald Horner, Ed Plutte, and Bill Connolly.

Six Units Offered In Winter Session

Because of the popularity of the winter session last year, which began January 6, 1930, and ended February 14, 1930, another session will be established this year, though the same program will not be carried out.

The winter session was inaugurated on the request of teachers who were unable to attend the usual summer sessions because their schools continued through the summer. Six units of credit were granted, the course stressing progressive education. Music, art, and nature study were also included. Education W350C, Methods and Materials of the Elementary School; English W56, Literary Trends of Today; Education W311A, Theory and Practice of Teaching Art in the Elementary School; Education W329A, Teaching Music in the Elementary Grades; Biological Science W2A, Nature Study, were the courses offered.

The mornings were devoted to the observation of classroom work in the San Francisco and Oakland city schools. Efforts were made to have winter session students see pupil activities in the various stages of progress.

Lend a Helping Hand

The men are here, the college is taking on a more collegiate appearance, and everything seems to be running in its natural order, but we are faced with rather a difficult proposition.

If we want to place in the athletic field this spring we must have money to buy athletic equipment.

How is this money to be raised? Should we raise the student body dues? Shall we sell season tickets? Come forth, fellow students, and give the Student Affairs Committee your suggestions; they need them.

Here & There

A new magazine, "Fortune," published by the same company that issues "Dime," is now in the library. From cover to cover it is filled with illustrations, many of which are done in color. This new magazine is rich in material from the cultural and educational standpoint.

"Fortune" is not for sale at news stands. It can be ordered only from the publishers. The cost is ten dollars per year, or one dollar per copy. The magazine is published monthly.

"Research Technique and Child Study" is the title of the course Miss Holmes is taking at the University of California this fall. She is also doing child welfare work at the Child's Welfare Bureau.

A number of students enrolled in the college attended the training school here in their grammar school days. Others now enrolled represent a second generation.

Jeannie Smith and Gayland Crowley attended the training school, while Annette Shaver, Natalie Beggs, and Irene Merk represent the second generation. The mothers of Annette Shaver and Natalie Gegg were members of the first graduating class of the school. Irene Merk's aunt, Anne Maroney, was prominent in the Student Body activities and attended at the time of the earthquake.

There is a new face in the Fredric Burk School. It belongs to Mrs. May K. Berry who is in charge of speech correction. She is teaching, during her first semester here, under Mrs. Gifford, State Supervisor of Speech Correction.

Mrs. Berry attended summer session at S. T. C., where she introduced various new methods for the correction of speech faults. An opportunity to join her class is offered to those who wish to improve their articulation.

According to Dean Du Four, nearly two-thirds of the teachers who passed the kindergarten-primary examination, given by the San Francisco Board of Education, were graduates of San Francisco State Teachers' College.

"Quits," an amusing comedy-drama from the pen of the versatile Cyrys Wood, Broadway playwright, will be the first offering for the year by the members of the St. Ignatius College Players.

Great confidence in the Ignatius College Players and in their director, James J. Gill, was shown by Mr. Wood in placing his play in their hands for its premiere. Mr. Wood is well-known in New York and Hollywood where many of his plays have attained fame on the boards as well as on the screen.

BOOK NOOK

"Tharlane"

by Dorothy Cottrell

The author of "Singing Gold," Dorothy Cottrell, has written her second novel; namely, "Tharlane."

Tharlane is a vast tract of unbreakable virgin, Australia's land that old "H. B." the unscrupulous, corpulent, central figure of the story starts out to conquer. It takes him twenty years to accomplish this ambition. The waste land is finally filled with sheep and peeres. Water and white mea flow into the desert. But at this moment Nemesis overtakes the Australian Napoleon. At the start of the story his false testimony sends an important and innocent man to prison. The man serves his time and comes out to take his vengeance. He sets the dry brush land of Tharlane on fire, destroying H. B.'s property and life.

The story is both attractive and unattractive in style and content. There is a sloppy sentimental romance. Donald, the shearer, woos Georgina, the half caste girl. In the category of attractiveness come those things which seem to be rooted in observation—the look of the land, the casual description of local types. There is a magnificent fight to death between two "men" kangaroos; there is the flight of the herds; there is the exotic Australian wild life before roaring flames; far removed from the sacred words of the lovers.

FRANCISCAN PRIERS

Symon: I would give \$5.00 for just one kiss from a nice girl like you.

Lu: Oh, how terrible!

Symon: Did I offend you?

Lu: No. I was just thinking about the fortune I gave away last night.

Mrs. Herndon: "Is your husband tight?"

Mrs. Davis: "Is he? Why, every time he takes a penny out of his pocket the Indian blinks at the light."

A young wench writes to the editor:

"Dear sir: I note by your paper that if I ain't got enuf of brains that fish is good food to develop sum. What kind of fish can I eat?"

The editor replies: "Judging from your letter, I would advise you to eat a whale."

Old lady: If you really want work, Farmer Gray wants a right hand man.

Hobo: Jus' my luck, lidy, I'm left 'anded.

Book Store To Sponsor Contest

Do you recognize the noses and chins, or the lack of chins in this college? If so, you may win a box of Haas' Candy.

In each issue of the "Bay Leaf," a silhouette of a prominent member of the student body will appear. The first student to guess the correct name of the outlined figure, and report it at the Book Store candy counter, will receive the prize for the week.

This contest is sponsored by the Student Body Book Store, and starts with this issue.

Today I thought I was walking a tight rope. We call it College Walk, but it looks like a ribbon to me. It's much too narrow to be a path; nevertheless, that's what we use it for.

Bordered as it is with biting red rocks that cut right into the very soles of your feet, the path to which I refer, is the only means to get across the campus from College Hall to Anderson Hall. Or course, there's the sidewalk that one might use on Buchanan street; but that's outside the grounds, and it's the internal facilities that we're concerned with anyhow.

This particular lane, of which I write, has such little breadth, that more than one pedestrian is usually forced to detour into the dirt, risking his neck as he does so; for the adjoining slopes are plenty steep, as you've no doubt found out. And if any one is lucky enough to get back on the path, his shoes look like relics of the World War.

I should say that this narrow passageway permits two people to pass each other comfortably, giving each of them room enough to breathe. Incidentally, these two persons can walk just as securely side by side. And they generally do.

But suppose another couple, take Violet Wilson and Harry Rogie for instance, approach from the opposite direction; what's to happen when both parties meet at a particular point? Obviously, a pair of persons has to withdraw temporarily from the scene. And that pair is made up usually of the knight errants, who give the benefit of the doubt to their lady

friends, allowing them to keep their shapely feet on the tar. But, oh! those poor fellows! When the dust clears away, their oxfords look like nobody's business.

You can't blame the young men if they send their shoe-shine bills to the college. It ought to pay for them.

Then there's the case of those poor P. E. people. You know the ones. The women who have to run like the dickens when the bell rings, to get over to the gym in time for class. If they're late, it's just too bad. Naturally, they don't waste their time on the way. They usually have to cut across the field and take a chance with those big boulders lying around. If they come out alive, they get a lucky break.

Now, it seems to me that at the beginning of this semester, I saw some workmen laying out that path and putting tar on it. Why in the world didn't they finish the job? It's only half done. It should be at least twice its present width.

But, it's never too late to patch things up. And in this case, a little patching would save thousands of shoes and hundreds of tempers.

If it is found inadvisable to double the breadth of that particular lane, why can't another path be made? One leading from the side entrance of College Hall to the main entrance of the gym? That would be mighty handy, it seems to me. For it would certainly take off a goodly per cent of the ladies from the present thoroughfare.

Well, that's all for today. Yours for wider paths, and plenty of them. Turtum.

WISE QUACKS

How old are you? inquired the visitor of his host's small son.

That is a difficult question, answered Myron, removing his spectacles, and wiping them reflectively. "The latest personal survey available shows my psychological age to be 12; my moral age 4; my anatomical age to be 7; my physiological age 6. I suppose, however, that you refer to my chronological age which is 8. That is so old-fashioned that I rarely ever mention it."

"Dear teacher!" wrote Mrs. Cohen, "You must not whack my Alton. He is a delicate child, and isn't used to it. We never strike him at home, except in self defence."

Mr. Frank Ray has promised the laundry that he will send back all their pins if they will return all his buttons.

"What do you think of while reading a chapter in Beard?" Mrs. Cowell asked one of her Social Science 40 classes.

"Reaching the end" was the prompt outspoken reply of one of the few men students in the class.

Johnnie: Say, Mom, was baby sent down from heaven?

Mom: Yes, son.

Johnnie: I guess they liked to have things quiet up there, huh, Mom?

Student Advisors Plan Their Work

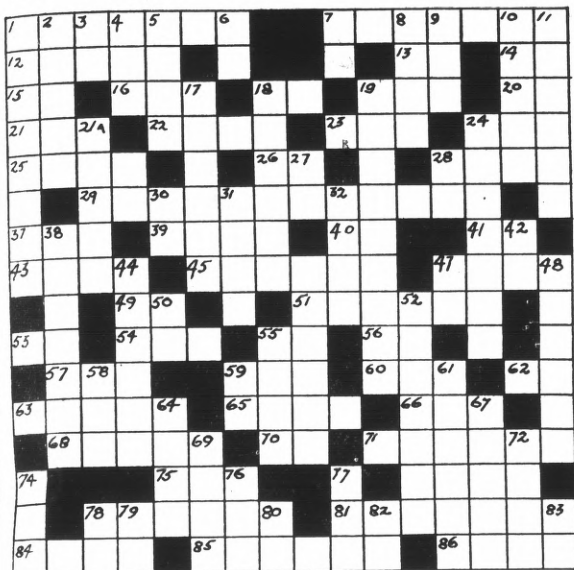

Striving to assist groups of fifteen to twenty freshmen girls, the senior advisory committee, under the direction of Miss Clara Crump-ton, registrar, are devising various methods of carrying out their work.

Getting acquainted has been assisted by notes designating a meeting place and the attendance of the different groups at a luncheon or afternoon tea. Further work of the committee will include the encouragement and suggestion of remedies for difficulties during the first semester.

With Grace Helen Smith as chairman, the committee consists of Ellen Alexander, Elizabeth Baker, Charles Crawford, Edna Gardner, Elena Foppiano, Ruth Gardener, Alice Garsen, Grace Hauptli, Elva Husim, Katherine Landers, Margaret Lemon, Lillian Lobb, Margaret Mareck, Louise Miclo, Margaret Petray, Mae Quick, Alice Rich, Ann Sanbraillo, Dorothy Singer, Gola Sanders, Helena Taylor, Helen Vida, Jessica Wayland, and Phyllis Fibush.

The class of December '30 held its first class meeting of the term, Wednesday, September 3. The following officers were elected: president, Rose Marraccini; vice-president, Catherine O'Farrell; secretary-treasurer, Leah Boehm; yell-leader, Mildred Smith.

Due to the change to a four year college institution, this class is the smallest on the campus. The seniors, however, intend to carry on many activities. They are already planning various affairs for the semester.

Editor-In-Chief Eats Paper Clip

Wishing to become more experienced in the ways of editorship, Miss Betty Fiske, Editor-in-chief of the "Bay Leaf," swallowed a paper clip, Friday, September 19. Anxious inquiries from friends were answered by supreme indifference on the part of the editor who wended her way to her next class undisturbed. When asked for the reason for this act by an inquisitive reporter, Miss Fiske stated:

"The paper clip really slipped, but I always wondered how an article felt when a paper clip was slipped on it. Now I know and I feel as if I can follow the emotions of an article until it appears in print."

The reporter was too polite to ask what connection the eating of the paper clip had to do with Miss Fiske's Scotch ancestry.

College Theatre Play Very Successful

Comedy, rare comedy, was presented to the student body by the College Theatre in their play, "Three Live Ghosts," given Friday night, September 19, in the Frederic Burk auditorium.

The high spots of the play were many and varied. The best sustained characters of the play were: Amy Taubman, as Mrs. Gubbins; Hazel Dell Adamson, as the morose Miss Woofers; George Belieu, as Jimmy Gubbins, who bore the responsibilities of a whole family on his shoulders; and Everett O'Rourke, as "Spoofy," the shell-shocked Lord Leicester.

The plot of the play centered around the return of three men from France who had been reported killed in the war. These men really should have remained dead for: Jimmy Gubbins' mother was collecting his life-insurance; Bill Jones was wanted in America for the theft of some stocks; and "Spoofy" was a shell-shocked man who knew neither his name, identity, nor family relations. The play reached an amusing climax when "Spoofy" regained his memory. Bill Jones was exonerated and Jimmy Gubbins' responsibilities about his friends were at an end.

The setting was a tawdry tenement room, the walls of which were constructed by Donald Pryor and Byron McDonald.

Astronomy To Be Topic Of Lectures

The first of the fall series of public lectures sponsored by the Astronomical Society of the Pacific will be given September 15, in the auditorium of the Pacific Gas and Electric Company, 245 Market street, at 8:00 p. m. Dr. F. Meyer, Professor of Astronomy in the University of California, will deliver the lectures.

The title of each lecture and its date are as follows:

- September 15 "The Trans-Nep-tunian Planet Pluto."
- October 20 "Astronomical Measuring Rods and the Distance of the Stars."
- November 17 "Celestial Giants and Dwarfs."
- December 15 "The Great Nebula in Andromeda."

Parent Teachers Hold First Meeting Of Fall Semester

The Frederic Burk Parent-Teachers' Association held its first meeting on September 4. Mr. Sherman L. Brown, principal of the Frederic Burk School, spoke and said that it was part and parcel of the educational program. It is the desire of the organization to present its own particular point of view so as to be able to work with the school and identify itself with school policies.

At the next meeting the principal of the Training School is to present ideas as to his own department's work. The prospective teachers have been invited to be present.

The P. T. A. would like the co-operation of the College in connection with its work with the city. The philanthropic department is collecting tinfoil to be used to buy braces for crippled children, glasses for those with defective vision, shoes for the lame, and other articles to aid those physically handicapped.

A barrel is to be placed in the outer hall of the Training School to serve as a receptacle for this worthy purpose. If there is co-operation in this matter a barrel will also be placed in the upper hall of the College.

Aileen Succeeds In Hollywood

Everyone remembers Aileen Broderson, President of the Freshman Class of last semester. Aileen is no longer in college, but an exciting and glamorous tale is being whispered among her friends.

During this last summer vacation, it is reported that Aileen spent several weeks in Los Angeles with relations. She was fortunate in gaining access into one of the studios in Hollywood. As S. T. C. knows, Aileen has a beautiful voice, and she was asked to try it out over the vitaphone.

Needless to say, the results were most successful, and Aileen was offered a contract. However, according to her friends, Aileen prefers a dictator to a director, so she has returned to a San Francisco business college.

Art Club Members Plan Chinese Tea

Several social events, including a trip through Chinatown and a beach party, were planned by the Art Club at their first meeting of this term, Monday, September 14. After the business of the day had been completed, games were played and refreshments served.

Members of the club will visit the Beaux Arts Gallery, Friday, September 18, at four o'clock to view an exhibition. All students interested in art have been invited to accompany them.

The Art Club will meet again Wednesday, September 23. Margaret Cooch, president of the club, will welcome all art minors to attend the meeting.

Dames Club Meets

The Franciscan Dames, the married women's club of S. T. C., held a business meeting Thursday, September 11. Mrs. Spozio, faculty advisor, addressed the club and welcomed the new members. A general discussion of the activities for the year was held.

Mrs. Ethel Phillips, president of the Franciscan Dames, entertained the club at a bridge tea at her home.

Educator Hopes For Closer Relations

Comparable in his lasting achievements only to the "grand old man of the world," otherwise known as Captain Robert Dollar, is Dr. Kiang Kang Hu, China's foremost educator. Dr. Kiang is remaining in the United States and Canada for a period of four years, this being the third, to return again to China to resume his intensive interests in education there that he severed when he left.

Mrs. Olive Cowell, a member of the faculty and one of his most cordial American friends, tells of several incidents that best reveal the extent of his interests in Chinese culture.

Attains Varied Disinctions

Apart from all the Chinese students who are receiving their education either in China or elsewhere and who know of Dr. Kiang, there are those who connect his name with only one of his accomplishments, knowing him to be the best trained and most accurate authority in that particular line. There are those who therefore know him only as a novelist; others who think of him as China's greatest educator; some who know him only as Dr. Kiang, collector of China's finest pieces of art, and exhibitor of these works; again he is known for his remarkable translations, his most recent being a fascinating book, "Jade Mountain," which consists of three hundred poems that come down from the Tang dynasty; and still again he is known for his remarkable library of eight thousand books, which he has given to the University of California library; and there are, in all probability, a great number of kindly acts about which one shall never hear.

Family Aids China

Likewise, Mrs. Kiang Kang Hu, Dr. Kiang's wife, has distinguished herself by introducing into China the Montessori Method. Dr. Kiang's daughters are studying to enter the medical profession.

China Urges Understanding

The underlying principal of Dr. Kiang's lectures (he has lectured in Europe, Asia, and in the western hemisphere) is to deliver a message, sincere to the point of pleading, straight to the people in the western hemisphere: China's interests in the west are obviously extensive. Why is it then that the west does not respond with as keen an interest in the wealth of cultural advantages the Chinese are willing to share and exchange? Dr. Kiang's work in the west is precisely of that nature, to promote a more potent interest in his country, to stimulate a desire to travel, and to seek a closer knowledge and understanding of the Chinese.

Librarians Engaged In Outside Activities

All the librarians of the College Library are taking or plan to take various courses in extension or graduate work, at either the University of California or S. T. C.

Miss Ruth Fleming and Miss Ruth Richards are taking graduate courses at the University School of Librarianship. Both are working for their master's degree, Miss Fleming having nearly completed her work.

Mrs. Ruth Lyon, also engrossed in advanced study, is taking the extension course, E195, Library Values, given by Dr. Arnesen.

Miss Edla Romander hopes to be enrolled, in the near future, in a course in which the student is sometimes up and sometimes down—depending upon the horse.

Home Economics Shows Progress

Miss Spellman announced that classes in home economics are larger this semester than they have ever been before. The classes of foods, cooking, textile, and clothing are very large. This fact shows that there is a larger demand for home economics, and that more students are turning to this field than heretofore. The new cooking laboratory in the training school is being used for the first time.

Miss Spellman also states that the cafeteria is serving a greater number of students than it has in previous semesters. The cafeteria is open from 11:00 until 3:00 o'clock.

Ciwa Griffiths Poem Honored

The Scribes' Club was delighted to find in "First the Blade," an intercollegiate anthology of verse, a poem by Ciwa Griffiths, one of the club's foremost members.

Miss Griffiths has been outstanding in literary work in the college for some time, having been editor of the "Bay Leaf" as well as being the present editor of the "Franciscan," the college yearbook.

Instructor's Niece Arrives For Visit

Attending the Frederic Burk School, little Anna Lee Brumbach, Miss Allcutt's niece, has begun an indefinite stay in California. She is five years old, and has been enrolled in the first grade.

Up to the present time the little girl has had her home in Chicago. While there, she traveled frequently by air between Chicago and Kansas City.

Miss Allcutt, with whom Anna Lee is staying, has acquired all the responsibilities of a mother.

"Ten Cents a Dance" will be the theme song of the dance to be given Friday evening, September 26, at the Phi Lambda Chi house, 1927 Washington street.

Admission will be free to Phi Lambda Chi members. Those planning to attend are asked to sign up on the poster on the bulletin board.

The music will be furnished by Bernard Noodleman's orchestra. Eleanor Jessie is chairman of the dance.

Last year's bacteriology students may obtain their notebooks on Monday, Wednesday, and Friday mornings during September in Mr. Stanley W. Morse's office, 201.

COLLEGE GLEE CLUB WILL HOLD DINNER, DANCE

THE FORMAL AFFAIR WILL BE HELD SATURDAY, OCTOBER 11, AT THE WESTERN WOMEN'S CLUB

Glee Club Plans Dinner and Dance

The Glee Club formal dinner dance will be held in the Gold Ball Room of the Western Women's Club, Saturday, October 11. Miss Ruth Brazel in charge of the dance promises many novelties in both decoration and dancing numbers.

The entire Glee Club is looking forward with great expectation to the dance which is open to all members of the student body.

Reservations for this dance may be made with any Glee Club member or in Miss Levy's office.

Club Meets Today

Phi Lambda Chi will hold a business meeting, Wednesday, September 24.

Although the gathering will be primarily a business meeting for old members, novel entertainment has been planned by Viola Wagner, chairman of the entertainment committee.

Members are reminded by Alice Rich, president of Phi Lambda Chi, that September 24 is the last day that dues are payable.

"Golf Day" Is Success

The members of the class of December '33, held a "Miniature Golf Day" on Thursday September 11, at "The Palms", Golf Garden. Sophie Davis proved to be the best skilled amateur by making a score of eighty-one. The other scores varied on up into a hundred.

The tournament proved a great success, and all decided to have another "big day" very soon.

Scribes' Club Begins Literary Work

The Scribes Club held its first meeting this term on Thursday noon in room 19. The meeting hereafter will be held every Thursday at 12:30 P. M., in the Activities Room.

Mrs. Ruth Herndon, the president, welcomed the new members and explained the aims of the club. Mrs. Ruth Sturgeon told of the affiliations with the English Club at the San Jose Teachers' College, and of the organization's plan to publish a literary magazine.

Miss Lillian Talbert, the club's sponsor, gave a very interesting talk on the writing of poetry. A story and a poem written by Ciwa Griffiths were read. Vivian Olson also read several of her poems.

College Orchestra Growing Rapidly

"This semester the college orchestra is just twice the size it was last year," according to William E. Knuth, professor of music.

There are now about forty-five members in the orchestra, all of whom are music majors. This membership makes possible complete instrumentation.

Full rehearsals on Mondays and Wednesdays, practice of string instruments on Thursdays, and chorus and orchestra together on Fridays assure perfection when the orchestra plays for the various college functions.

Bobby Jones Is Mascot Of May '33

Since all of the members of the Class of May '33 have been infested with the Pee-Wee golf germ this summer, it was decided at their first meeting of this semester, Friday, September 5, that a miniature golf tournament would be placed on the social calendar.

The meeting was devoted to a discussion of the social events of the coming term, which included the Class Dinner, a theatre party, and the election of officers.

Due to the departure of the vice-president, Dorothy Bradford, a new one was elected. The officers of the class are the following: president, Thelma Rees; vice-president, Dorothy Bartels; secretary and treasurer, Viola Wagner; and yell leader, Peg Carroll.

Under this competent leadership a most progressive term of activities is expected.

Want Ad Column

Editor's Note:

Because one of the aims of the "Bay Leaf" is to be of the greatest service to the greatest number of students in all ways possible, we are adding a column to the paper in which students may run "want ads."

The ads should be made as brief as possible, but contain all the details essential to its effectiveness. The rates are ten cents per column line.
